

Meet Shrimal

Software Development Engineer in Test

Chennai • shrimalmeet2001@gmail.com • +918955251538 • Portfolio • LinkedIn • GitHub

PROFESSIONAL SUMMARY

SDET with **3+ years** of experience building scalable automation frameworks using **Playwright, Selenium, and Python**. Delivered measurable impact by reducing regression effort by **60%** through automation of **250+ test cases** across cart and checkout modules. Skilled in **API automation**, **SQL**-based data validation, and **CI/CD** integration (**Jenkins, GitLab**). Leverages AI tools (Claude) to generate test scenarios, uncover edge cases, and enhance overall test efficiency. Seeking SDET roles focused on high-quality software delivery.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Automation Tools: Selenium, Playwright, pytest, Page Object Model (POM)

API Testing: Postman, Swagger UI

Tools: Jenkins, GitHub Actions, Git, Jira, POM, Requests (Python), Claude (Anthropic), GitHub Copilot

Testing Types: Functional, Regression, Cross-Browser, API, UI, UAT

Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

KEURO HEALTH & TECHNOLOGY LLP

Chennai, Tamil Nadu

Software Development Engineer in Test

September 2024-Present

- Built automation frameworks using **Playwright with Python** to automate **10+** critical modules including cart, checkout, and user profiles, covering **250+ test cases** and cutting regression testing time by **60%**.
- Took **ownership** of integrating automation tests into **Jenkins** and **GitLab** pipelines, helping the team ship **3-4** releases every week.
- Built and executed **API automation** test suites using **Postman** and **Python** (requests) with **pytest**, validating response contracts, status codes, and ensuring data integrity across **10+** application flows.
- Resolved **flaky test cases** across the automation suite, improving test pass rate to **85%**, ensuring smooth deployments.
- Validated **30+** API responses against SQL database records, preventing critical data defects before release.
- Took the lead in setting up **Allure reports** for the automation suite, giving the team clear, easy-to-read test results and helping speed up decision-making before releases.
- Leveraged **AI tools** (Claude) to design **30+** edge-case test scenarios, improving test coverage efficiency by an estimated **20%**.

FLOOID.IN

Remote

QA Engineer

April 2024 - August 2024

- Developed automation scripts using **Selenium with Python** for 5+ core modules such as homepage, PDP, and product flows.
- Managed structured **test data** across 5+ modules, ensuring consistent and reliable automation test execution.
- Matured the **API framework** into a full pytest-based suite covering **40+** test cases, integrating it with GitHub Actions **CI/CD** for automated execution on every commit.
- Performed **cross-browser** testing across Chrome, Firefox, and Safari to ensure consistent functionality.

Sprinkle Consultancy LLP

Remote

Freelance QA Engineer

July 2023 - March 2024

- Performed manual UI testing on Flooid.in, executing **80+** test cases across homepage, product listing, and checkout flows.
- Laid the initial groundwork for an API automation framework using Python and the Requests library, covering **15+ core endpoints** for **request/response** validation.

EDUCATION

GEETANJALI INSTITUTE OF TECHNICAL STUDIES, RTU

Udaipur, Rajasthan

Bachelor of Engineering in Computer Science - 87%

2019-2023
